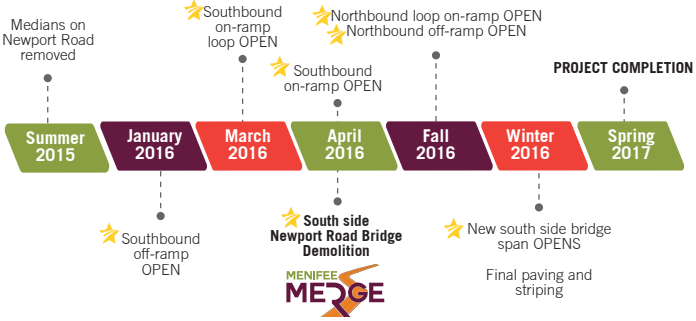
I-215 / NEWPORT ROAD INTERCHANGE PROJECT

Construction Alert

Project Milestones

- New I-215 northbound and southbound loop on-ramps
- Widened Newport Road bridge to six lanes of traffic
- Improved shoulders on Newport Road bridge for bike lanes and pedestrian sidewalk
- Improved intersections at Haun Road/Newport Road and Antelope Road/Newport Road
- Improved acceleration lanes to I-215 northbound and southbound on-ramps
- Improved bridge over Salt Creek on I-215 northbound acceleration lane

Project Schedule



NOTE: Information contained in this Construction Alert is subject to change without notice, based on inclement weather, field conditions or other operational factors.

Construction Activity, March 12-18, 2017

Intermittent closures for freeway lane, ramp and bridge construction at Newport Road

Date/Time	Location/Details
March 12-13 Sunday-Monday 11pm-5am **March 13-17 Monday-Friday 8pm-5am** **March 17-18 Friday-Saturday 9pm-7am**	▪ Intermittent freeway lane closures on **southbound I-215** between Scott Road and McCall Boulevard ▪ Intermittent ramp closures on **southbound I-215 on- and off-ramps**
March 12-18 Sunday-Friday 10pm-6am **March 17-18 Friday-Saturday 10pm-7am**	▪ Intermittent freeway lane closures on **northbound I-215** between Scott Road and McCall Boulevard ▪ Intermittent ramp closures on **northbound I-215 on- and off-ramps**
March 12-18 Sunday-Saturday 9pm-6am	▪ Intermittent lane reductions on Newport Road between Haun Road and Antelope Road

Final Construction Stage Nearing Completion

As the I-215/Newport Road Interchange Project is nearing completion, crews are working diligently for final configuration. All major project milestones have been completed.

Paving operations will be conducted Sunday, March 12, from 9pm to 6am, at the Antelope Road and Newport Road intersection. During these operations the signal lights will be flashing; which is anticipated to cause minor traffic delays.

Intermittent ramp and lane closures will continue for approximately five weeks to facilitate final grading activities, landscaping, concrete finishing on the bridge, and removal of concrete barrier rail (k-rail) from the construction area.

Please plan ahead in anticipation of the temporary increased traffic in this area. If possible, please avoid the project corridor and use an alternate route. Motorists and pedestrians should slow down and use caution when traveling through work zones, near barricades and equipment.
