CITY OF MENIFEE IMPROVING MAJOR AREA ARTERIAL ROADS

City Resurfacing Murrieta Rd., Newport Rd., Scott Rd., Menifee Rd., Briggs Rd.

MENIFEE, CA – The City of Menifee has initiated a road improvement project to resurface multiple arterial roads in the area, including Murrieta Rd., Newport Rd., Scott Rd., Menifee Rd. and Briggs Rd. The city has entered into an agreement with contractor Roy Allan Slurry Seal for resurfacing the existing road by restoring the low to moderately distressed asphalt concrete pavement with an application of slurry seal.

Work on the main thoroughfares begin this month, and is anticipated to go until mid- May, with potential extensions for inclement weather. The project is funded in part with Measure DD, and Gas Tax. The length of the project is approximately 6.6 linear miles.

“Traffic in the area will be moderately impacted due to the road improvements, but the contractor will have clear signage for detours,” said City Engineer Jonathan Smith. “Residents in or around the project roadways, should plan for slight delays and detours through mid-May.”

“It is the City’s priority to ensure the safety of our roadways, as well as ensure our city’s aesthetic is reflective by the pride of the residents who live and work in Menifee,” said Armando Villa, City Manager. “We appreciate resident’s patience while we continue to work on traffic circulation, and enhancements to our roadways in the City.”
