

# HOMELESS TASK FORCE

## Organizational Goal

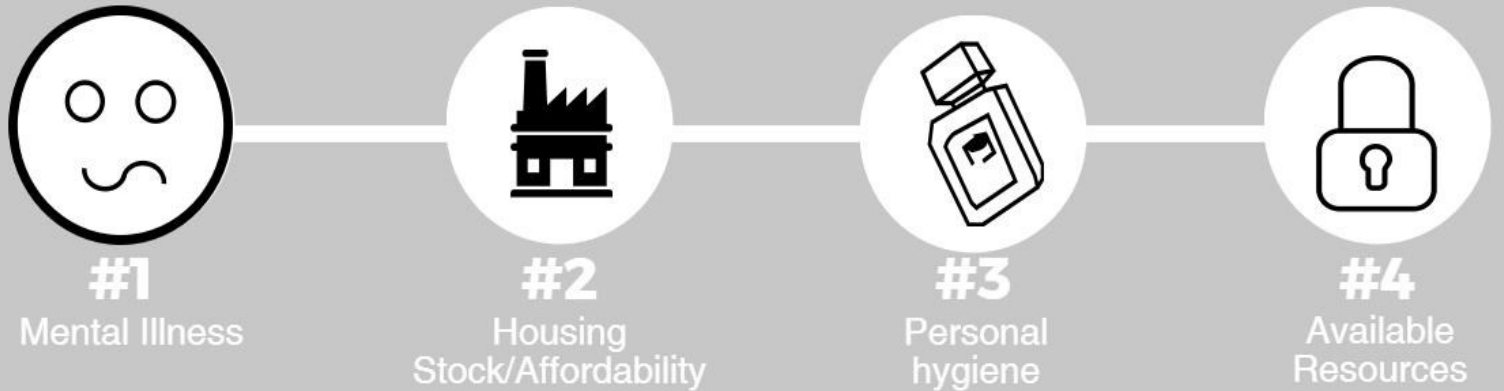

The City of Menifee’s homeless outreach initiative will entail a multi-faceted approach to homelessness that will include collaboration, coordination, and communication. More specifically the City will form a collaboration of community stakeholders, including non-profit and faith-based organizations as well as local businesses, to end the cycle of homelessness by developing a coordinated system of care. Through the Menifee Homeless Task Force, the City of Menifee will coordinate a series of meetings to bring community organizations that are currently providing homeless services to identify resources and assets that each can bring to the table, and develop a Homeless Strategic Plan that will set guidelines to address homelessness.
