

## MEASURE DD UPDATE / Your Tax Dollars at Work

Menifee voters approved Measure DD, the one percent sales tax increase, by a convincing 68 percent in November 2016. Revenues from Measure DD are required to remain local and can only be used for critical City services like public safety and 911 emergency response services; keeping our roads, parks and infrastructure in good condition; and other general service needs that make Menifee a desirable place to work, play and do business. The Measure DD Citizen Oversight Committee meets regularly and provides oversight on how Measure DD funds are spent to ensure the integrity of the measure.

With these funds, the City of Menifee is able bridge the funding gap required to maintain a safe, clean and vibrant community our residents have come to expect.

## [ IMPROVING INFRASTRUCTURE ]

### Scott Road/Interstate 215 Interchange Project

- Reconstruct the Scott Road/I-215 interchange to improve freeway access and traffic circulation
- Phase 1 of project completed, with bridge falsework and retaining walls finished
- Next phase includes construction of on- and off-ramps

### Holland Road/Interstate 215 Overpass

- Build a four-lane bridge over I-215 to alleviate traffic and promote safer traveling
- Realignment of Willowood Way to integrate with the previous Holland Road and intersect with Hanover Lane
- Construction slated to begin 2022-2023

### Bradley Bridge over Salt Creek\*

- Construct a new four-lane bridge over Salt Creek
- The project will create a much-needed raised bridge over Salt Creek out of the floodplain
- Provide an additional east/west thoroughfare into Sun City

\*Measure DD funding has been committed to this project, but a funding gap remains in order to begin this project

### New critical capital improvement road safety equipment

Purchase of road grader, front-end loader, dump truck and heavy-duty trailer

### Road Resurfacing

- **Sherman & Ethanac Road**  
Street resurfacing and reconstruction slated for 2019-2020
- **Goetz Road**  
Street resurfacing slated for 2019-2020
- **Encanto Neighborhoods**  
Street resurfacing and ADA retrofit project slated for 2019-2020
- **Arterial Roads**  
Street resurfacing slated for 2019-2020

### Pedestrian Safety

The City of Menifee is working to fill gaps for two new sidewalk projects, and has completed four out of the 11 projects slated for improvements. Continuous, safe sidewalks separated from traffic are critical to pedestrian and motorist safety.

McCall Boulevard

Newport Road

**COMPLETED**

- Holland Road
- Garbani Road
- Menifee Road
- Sherman Road

Menifee residents will soon notice upgrading of all the "walk/don't walk" pedestrian signals to incorporate timers. The City will also be upgrading handicapped/pedestrian ramps to meet the current Americans with Disabilities Act (ADA) requirements.

## [ PUBLIC SAFETY ] ONGOING

The Menifee Police Department will be taking over the old City Hall building—located at 29714 Haun Road—which is being retrofitted to incorporate new equipment and systems for the City's growing police force, including:

- Cybersecurity upgrades
- Data-protection measures
- Dispatch technology
- Security systems

“Enhancing public safety is a strategic visioning priority set forth by the city council. Thanks to Measure DD, we have been able to set that vision into motion.”

— Armando G. Villa, City Manager

### Menifee Police Department Formation Timeline

### Code Enforcement

Three additional Code Enforcement officers will be hired to enforce municipal codes, which serve to:

- Protect owner investment
- Promote general health and welfare
- Enhance the quality of Menifee neighborhoods

### Paramedics and Fire

Funds are set aside for the purchase of a replacement ladder truck, as the current truck is past its operational expectancy.

**COMPLETED**

- Menifee's Fire Department transitions from rural to municipal staffing
- Seven new Fire Captains hired
- Medic Patrol 7 unit created
